
Newsletter 2

On the 23rd and 24th of May 2013 a second partner meeting was held between the Certi.MenTu (Certification for Mentors and Tutors) project partnership in Thessaloniki in Greece.

During this meeting the project partners identified the required key skills out of the European Competence Matrices on level 5 according to EQF for both tutors and mentors. Based on these key skills we started to develop the modules for the curricula implementing and adapting six modules of the project IWOLTE.

Second partner meeting in Thessaloniki, Greece
from 23rd to 24th of May 2013

Current project status:

The following project activities have been done:

- ✓ European Report about the tutors & mentors sector – challenges and trends
- ✓ Common definition of the functions of tutors and mentors in an employment context
- ✓ European Competence matrix for tutors and mentors, which provides the basis for the curriculum and for certification of non-formal and informal knowledge according to EN ISO 17024 - Certification of Persons

In progress:

- Transfer and further development of a series of seminars (6 modules) for tutors and mentors, which will be the basis for assessment and certification
- Development of the certification process for the two professions of mentor and tutor in the vocational field

Next steps:

- Trial of two modules in each participating country offering training for 80 to 100 persons
- Implementation of the certification process
